# Safari Browser Shortcuts Cheatsheet

A comprehensive cheat sheet covering essential Safari browser shortcuts for improved productivity and navigation on macOS.

## General Navigation

### Basic Navigation Shortcuts

| | |
|---|---|
| `Cmd + L` | Select the address bar for typing a new URL or search query. |
| `Cmd + R` | Reload the current page. |
| `Cmd + Shift + R` | Reload the current page, ignoring cached content. |
| `Cmd + . (period)` | Stop loading the current page. |
| `Cmd + [` | Go back to the previous page in history. |
| `Cmd + ]` | Go forward to the next page in history. |
| `Spacebar` | Scroll down the current page. |
| `Shift + Spacebar` | Scroll up the current page. |

### Tab Management

| | |
|---|---|
| `Cmd + T` | Open a new tab. |
| `Cmd + W` | Close the current tab. |
| `Cmd + Shift + T` | Reopen the last closed tab. |
| `Cmd + Number` | Switch to the tab corresponding to the number (e.g., Cmd + 1). |
| `Cmd + Shift + ]` or `Cmd + Shift + [` | Switch to the next or previous tab. |
| `Cmd + Option + Number` | Opens specified tab number if exists. |

## Finding and Searching

### In-Page Search

| | |
|---|---|
| `Cmd + F` | Open the in-page search bar. |
| `Cmd + G` | Find the next occurrence of the search term. |
| `Cmd + Shift + G` | Find the previous occurrence of the search term. |

### Safari Search

| | |
|---|---|
| `Cmd + Option + F` | Perform a search using the default search engine. |

## Safari Reader & Zoom

### Reader View

| | |
|---|---|
| `Shift + Cmd + R` | Enter or exit Reader View for simplified reading. |

### Zoom Controls

| | |
|---|---|
| `Cmd + + (plus)` | Zoom in on the current page. |
| `Cmd + - (minus)` | Zoom out on the current page. |
| `Cmd + 0 (zero)` | Reset zoom to the default level. |

## History & Downloads

### History Management

| | |
|---|---|
| `Cmd + Y` | Open the History window. |

### Downloads

| | |
|---|---|
| `Cmd + Option + L` | Show the Downloads window. |
