`ich mache`, `du machst`, `er/sie/es macht`, `wir machen`, `ihr macht`, `Sie/sie machen`

## Sentence Structure

### Basic Word Order

Main Clause	Subject - Verb - Object (SVO). Verb usually second element.
Subordinate Clause	Verb at the end of the clause.
Example (Main Clause)	<code>Ich trinke Kaffee</code> (I drink coffee)
Example (Subordinate Clause)	<code>Ich trinke Kaffee, weil ich müde bin</code> (I drink coffee because I am tired)

### Questions

Yes/No Questions	Verb comes first. <code>Bist du müde?</code> (Are you tired?)
W-Questions	Question word first (wer, was, wann, wo, warum, wie, etc.). <code>Wie geht es dir?</code> (How are you?)

### Prepositions

Prepositions govern the case of the noun that follows them (Accusative or Dative, sometimes Genitive).

Examples:

Accusative: `durch` (through), `für` (for), `ohne` (without), `um` (around)

Dative: `aus` (from), `bei` (at/near), `mit` (with), `nach` (after/to), `seit` (since), `von` (from), `zu` (to)

## Advanced Topics

### The Genitive Case

Used to show possession, though often replaced by the dative case in spoken German. Articles and nouns change form.

Example:

`Das Auto des Mannes` (The man's car). Here `des` `Mannes` is the Genitive form of `der Mann`.

### The Subjunctive Mood (Konjunktiv)

Used to express hypothetical situations, indirect speech, and polite requests. Two forms: Konjunktiv I (indirect speech) and Konjunktiv II (hypothetical).

Example (Konjunktiv II):

`Ich wäre froh, wenn du mir helfen könntest` (I would be happy if you could help me).

### Compound Words

German frequently uses compound words (combining two or more words into one) to create new meanings. The gender of the last word determines the gender of the compound word.

Examples:

`der Tisch` (table) + `die Lampe` (lamp) = `die Tischlampe` (table lamp)

`das Haus` (house) + `die Tür` (door) = `die Haustür` (front door)
